

FAQs

- **How much money will I save by purchasing the E-Cigarettes?**

Smoking E-Cigarettes are a great deal cheaper than smoking traditional tobacco cigarettes. Here is an example: “2-packs per day”, purchasing name-brand cigarettes cost over \$6.00 per pack, and you are spending approximately \$400.00 per month smoking tobacco cigarettes. After you make your initial investment of a kit you will spend around \$24.00 per month for your e-liquid & cartridges. You do the math \$400.00 a month on cigarettes or \$24.00 a month for your e-cigarettes.

- **How do I extend the life of the atomizer and cartridge?**

In order to extend the life of the atomizer and the cartridge, you need to keep the cartridge moist. As soon as the taste starts to become less desirable or you see less vapor this indicates that the fluid in the cartridge is running low. It is extremely important to not use the e-cigarette if the cartridge is becoming dry enough so that you do not see much vapor. If you keep heating the dry cartridge, the result will be that your cartridge has to be replaced, and it will damage your atomizer by causing it to overheat. Following these tips will extend the life of the atomizer and cartridge greatly.

- **What is a cartridge and how long will a cartridge last?**

The cartridge is a plastic tip with synthetic cotton in it sort of like the filter on your tobacco cigarette. The lifespan of a cartridge depends upon how moist you keep the cotton inside the cartridge. You will extend the lifespan of the cartridge by as much as 4 days just by keeping it moist. Just keep a bottle of your favorite flavored juice nearby and put 6-8 drops in when the taste or smoke becomes less than you desire. It is important to not use a cartridge more than 15 days!

- **How long will the battery last before needing recharging?**

Battery lifespan vary between brands, and determine by the number of full mouth puffs. These can range between 150-400 puffs, or drags. Each product typically identifies its capacities in the product description area. Best advice is to keep one battery on charge while you are using another one. There are Larger Batteries available for most brands that we sell. Just check in accessories. A battery can be re-charged up to 300 times after this time you will need to replace your battery.

- **Is there a guarantee with the purchase?**

Smokersvapor.com will replace any part that is not working properly within 30 days of purchase. We cannot refund or exchange juices or cartridges.

- **Are E-Cigarettes approved as a stop smoking product?**

E-Cigarettes have never been approved to be a stop smoking product and is not sold or marketed as such by Smokersvapor.com. E-Cigarettes are simply an alternative to smoking that offers you a safer Smoke/Vapor that has no first or second hand smoke, virtually odor free, and much cheaper than the cost of traditional smoking.

- **What is the Smoke/Vapor that is released?**

The smoke-like vapor that is released is simply condensation that evaporates into the air within seconds. An E-Cigarette will leave no visual residue in the air, whereas traditional smoke leaves an unsightly, acrid cloud on your furniture, walls, & clothes. And 2nd hand tobacco smoke is known to be harmful to others.

- **Does the Vapor of E-Cigarettes smell?**

There is no smell from the vapor of the e-cigarettes unlike the smell of tobacco filled cigarettes. There may be a slight smell from the vapor if you are using a fruit flavor such as watermelon or grape.

FAQs

- **What about the taste?**

The taste of the E-Cigarettes can resemble that of most name brand tobacco. We also carry many fruit flavor from pina-colada to red bull. It is fun to mix up flavors when your regular tobacco flavor becomes a little boring!

- **Can I use an E-Cigarette anywhere?**

Since the E-Cigarette does not put out hazardous 2nd hand smoke or produce any actual burning smoke it is a non-hazardous device and is essentially odorless. Leaving it open to use in any restaurant, bar, or anywhere else desired. Best of all, you can use it in your home with the blessing of your non-smoking spouse.

- **What does it mean when the indicator light flashes?**

The flashing light at the tip of the device indicates that the battery is low and needs to be recharged.

- **WARNING:**

E-Cigarettes or E-Liquid is not a smoking cessation product and may contain nicotine. Therefore, VapinJanes.com will not sell any e-product to anyone UNDER 18 YEARS OF AGE.
